Hi Barry,

- Glad to know that they've come for good use. Completely ok with exposing them.
- Faizaan and I are interested in collaborations (especially for the next few months). Please keep them coming :)

Thanks,
Srikanth.B.

Hi, Srikanth –

You have been very generous in giving us Cytoscape networks to test with. We've made good use of them.

New question: Cytoscape developers outside of our group are interested in testing with them. Before I expose them, I'd like to double-check with you. While the use would be within the broader Cytoscape development community, things like this have a way of leaking out over time. So, the real question would be whether you're OK exposing them publicly for testing purposes.

What do you think??

Here's the list you've let us use so far:
