Subject: Re: Sharing test networks outside of Ideker Lab

I'm OK with it.

Hi, Billur, Hannah, Justin, and Wei –

You have been very generous in giving us Cytoscape networks to test with. We've made good use of them.

New question: Cytoscape developers outside of our group are interested in testing with them. Before I expose them, I'd like to double-check with you. While the use would be within the broader Cytoscape development community, things like this have a way of leaking out over time. So, the real question would be whether you're OK exposing them publicly for testing purposes.

What do you think??

Here's the list you've let us use so far:
