Subject:	Re: Sharing test networks outside of Ideker Lab

Hi, Barry
I have no objection in doing so. I myself want to learn more about Cytoscape and also very happy to make others learn the same.

With Regards
Shazia

Hi, Shazia –

You have been very generous in giving us your Cytoscape network to test with. We've made good use of it.

New question: Cytoscape developers outside of our group are interested in testing with it. Before I expose it, I'd like to double-check with you. While the use would be within the broader Cytoscape development community, things like this have a way of leaking out over time. So, the real question would be whether you're OK exposing it publicly for testing purposes.

What do you think??

Here's what you've let us use so far:
